

**5+ years of fine-scale soil  
moisture estimates  
available!!**

---

**New study on the detection of  
cold-core rings in the Gulf  
Stream area using remote  
sensing platforms**

---

**Nodal sampling: removing  
tails and ripples from SMOS  
Brightness Temperatures**

---

**A review of microwave  
interferometric radiometry in  
remote sensing**

---

**New service available:  
Singularity Analysis**

---

**Inter-comparison of SMOS and  
Aquarius observations**

---

**Global Land products  
available!**

---

**A blending algorithm using SST data to improve SMOS SSS maps**

---

**Data assimilation of SMOS SSS data to create Level 4 salinity maps. A case study**

---

**Are ECMWF winds a reliable auxiliary data source for SMOS salinity retrievals over rainy regions?**
