

Data access (FTP)

Data produced at BEC is freely available through our FTP service. NetCDF files from which the maps were made along with their metadata and documentation can be directly downloaded using the following credentials:

Host: `sftp://eodata-bec.icm.csic.es`

Username: `ftpuser`

Password: `.x8UP(ar.YZ2R)`

Port: `25288`

If you use a dedicated FTP client (for instance FileZilla), you should use the following configuration:

Please contact `smos-bec@icm.csic.es` if you encounter any problems downloading the data.

Thank you for using our products,

The BEC team
